17 Great Search Engines You Can Use Instead of Google. Google may be the most popular choice in search engines, but here are 17 alternative search engines you can – and should – try.

17 Great Search Engines You Can Use Instead of Google

A search index is a body of structured data that a search engine refers to when looking for results that are relevant to a specific query. Indexes are a critical piece of any search system, since they must be tailored to the specific information retrieval method of the search engine's algorithm. In this manner, the algorithm and the index are ...

Web-indexing - Computer Science Wiki

Mojeek does still ban queries for CP and the CP sites cannot be found in its index (which is what every other engine does, anyway - in addition to much more meddling / censorship). All in all, we finally do have an independent search engine that's relatively private and doesn't censor alternative content.

Search Engines - which one to choose?

3. Parazite. Website: http ... It's one of the oldest search engines in the industry and claims to have an index of over a million pages which is plausible. As for "Onion" pages, the number is 479613 to be exact, just short of half a million which we can live with.
