...

I still have no clue of what the section about a master model was trying to convey - master, model, mold, plug and all seemed to be used interchangeably, resulting in nothing but confusion. The illustrations that *are* included in the book are of such laughable (lack of) quality that they make me wonder if the publisher thinks this is a joke ...

Amazon.com: Customer reviews: Modeller's Guide to Mould ...

The only way I can think of off-hand is to model the mask in clay, make a plaster mould of it, then paint on a layer of silicone which you've thickened (by adding a thixotropic agent). You'd get the right surface outside but inside wouldn't be totally smooth. A better way perhaps would be to use latex in the plaster mould rather than ...
