Seeing Whats Next Using The

But my favorite part of the book must be how the authors write a whole book about using theory to "See Whats Next." They argue we need to use theory instead of history, because history mostly 'predicts' the past but not the future. Then they end the book with this quote "Indeed, the telecommunications industry has historically seen waves of ...

Seeing What's Next: Using Theories of Innovation to ...

The book "Seeing whats next" explains how to make decisions by predicting what could happen in any industry by using the data of how and why things happened in the past. This is explained by describing the advancements and the failures happened in Telecommunications, Semi-Conductors, Education, Healthcare and Aviation.
